

The 3 Ds of INCIDENT RESPONSE

Veriato helps organizations deter, detect and detail insider threats by providing company-wide employee monitoring software. Insider threats come from employees or vendors who have been authorized to access IT resources, but use them in

unauthorized ways. This unauthorized use can result in fraud, IP theft, data breaches or leaks, noncompliance with company standards or government regulations, inappropriate behavior, or productivity loss.

Incident Occurrence

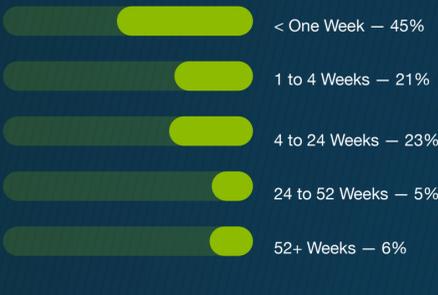

Insider Threat Occurrences By Department

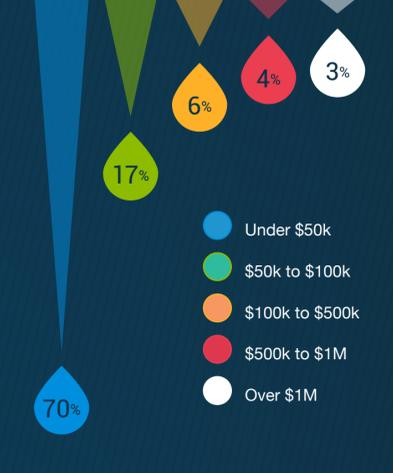

Time & Money

When were insider threats discovered?

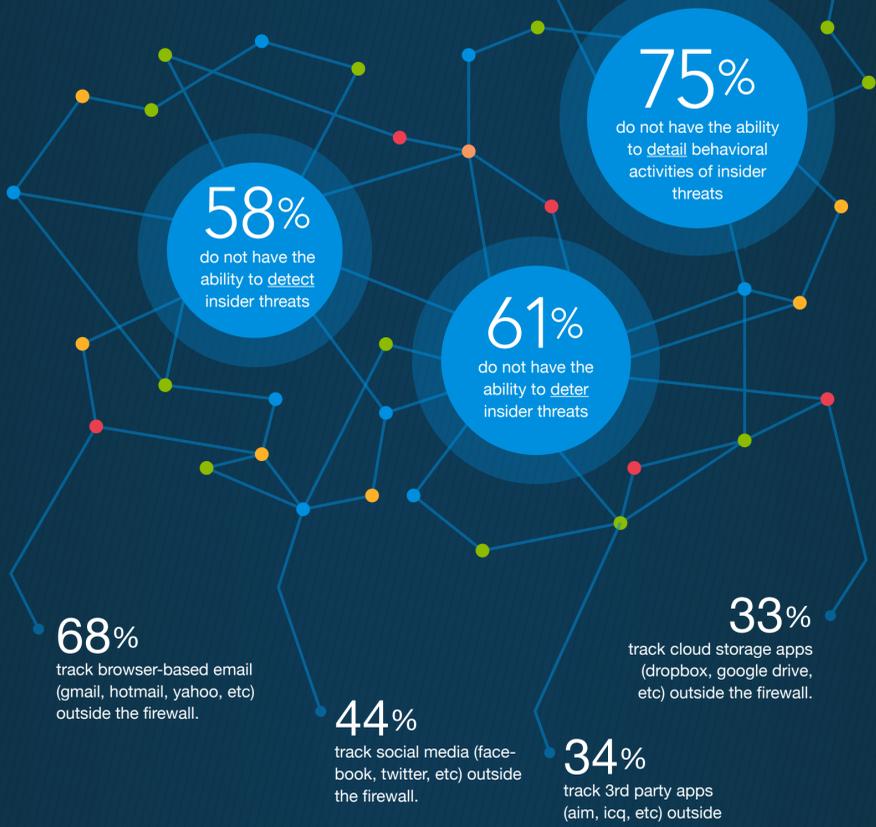

More than 50% of insider threat incidents are discovered more than a week later. 1/3 are discovered after a month has passed.

What is the average financial impact?

Lacking Prevention

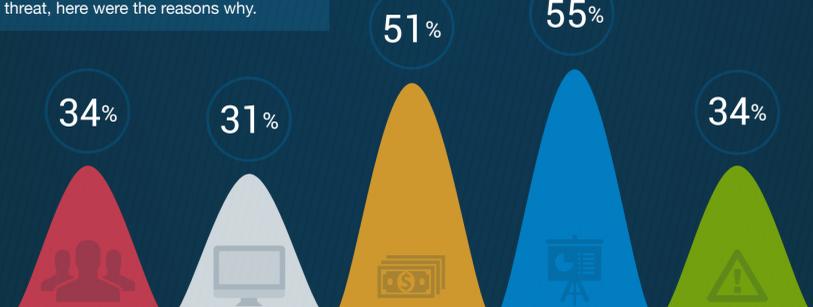

Are You Prepared?

Not Prepared, Why?

Of the 61% of organizations that felt they aren't prepared to deal with an insider threat, here were the reasons why.

Note: The total does not equal 100% because respondents could choose more than one option.

Important But Challenging

Which is most important to you?

Which is most challenging to you?

Why is it challenging?

Note: The total does not equal 100% because respondents could choose more than one option.

Insider Threat Responses

68% prefer a prevention-centered (beforehand) response over a detection-centered (after the fact) response.

Responses to insider threats may be coordinated through several departments in an organization.

Almost 70% of organizations coordinate insider threat responses through their Internal IT Department.

Veriato is the leader in computer and mobile device User Activity Monitoring and analysis software. Veriato has helped more than 36,000 businesses, government organizations, schools, and law enforcement agencies improve how they address security risk, audit compliance mandates, protect assets and reputation, ensure adherence to Acceptable Use Policies, and optimize productivity and efficiency. In addition, Veriato has sold nearly 1 Million licenses to help parents and guardians keep children safe online. For more information, visit www.veriato.com.
